Stila offers the perfect complexion in a stick from Quadpack's Q-Line range

California-based Stila is a carefree, whimsical cosmetics brand for women who make up their own rules. Its philosophy dictates that every day is a day to create a new story and put your best face forward. And its new 'CC Color Correcting Stick SPF 20' – contained in a 15mg pan stick from Quadpack's Q-Line range – allows you to do that with a healthy, youthful looking complexion.

This multi-benefit product helps correct colour, reduce redness and brighten the skin. The high-definition formula is buildable and glides on smoothly, leaving a natural-looking, satin finish.

Available in eight shades, the CC Colour Correcting Stick is packaged in a convenient twist up stick for easy, on-the-go touch-ups.

The container is made of polypropylene, for optimum compatibility with the high-tech formula. The outer walls have been moulded in glossy black, with the Stila logo silk screened in silver for a striking, minimalist look.

The Stila CC Color Correcting Stick SPF 20 is sold in retail outlets across the United States.
