Quadpack's tottle chosen for Ferrer's sun cream line

Spring has gone, summer is here and sun-filled days lie ahead. To enjoy the sun and stay protected, Laboratorio Ferrer has launched a new concept in sun protection. Prototrem not only protects, but also offers unique formulas that offer a choice that best suits an outdoor or summer lifestyle and the needs of even the most fair or sensitive of skin.

These formulas are the result of the extensive research & development by this international pharmaceutical company which is headquartered in Barcelona, Spain and the creation of the pack for its facial solutions was entrusted to Quadpack:

PROTEXTREM NATURAL INVISIBLE FLUID FPS 50+
PROTEXTREM SUBLIME BB CREAM FLUID FPS 50+

Aimed at the masstige market, a standard pack was required to contain the product. Quadpack selected a 50ml mono-layer tottle, reducer and cap and decorated it according to the brand's requirements. The HDPE bottle and cap have a smooth, matt finish, with blue silk screen print. The two variants are distinguished by the collar, hot-stamped in silver for Natural and gold for Sublime.

The products are sold in pharmacies and drug stores.
