The Montana collection: luxury packaging in tune with nature

Mountains, forests, rivers and native heritage – this is the scenery that has inspired Montana, Quadpack's new premium collection that adds a touch of wood to a skin care range. Comprising a selection of acrylic jars and airless packs with wooden caps, Montana evokes natural landscapes with wide open spaces.

With Montana, Quadpack has hand-picked a number of timeless jars and bottles and adorned them with ash caps from Technotraf. With pre-developed inner caps and a perfect fit to each container, Montana significantly reduces time to market for any cosmetics company looking to launch a skin care range.

Montana is ideal for prestige brands wanting to add a wooden component to their packaging. The caps offer more than a sense of luxury and tradition. They are also completely natural and offer an interesting texture, with a better grip and an authentic feel.

Both the jars and the airless bottles have a dual-wall structure, with a smooth, clear SAN outer and PP inner wall, for optimum compatibility. The bottles use Yonwoo technology for a longer shelf life and protection against external contaminants. They are available in 15ml, 30ml, 40ml and 50ml capacities. The jars come in 15ml, 30ml, 50ml, 100ml and 200ml, offering packaging solutions for every kind of skin care product, from serums to body lotions.

The Montana range can be decorated using a variety of techniques, while the caps – also available in beech – can be laser-etched and finished in a choice of textures and colours.

--- ENDS ---
