Yonwoo spot brush pen delivers Veld's Eye Magic

Veld's Eye Magic is an all-in-one eye contour repair product that reduces the effect of dark circles. Formulated to illuminate the under-eye area, Eye Magic comes not in a wand, but in an airless Yonwoo spot brush pen developed by Quadpack.

Inspired by the rich flora of the South African veldt, Eye Magic combines Rooibos with Haloxyl in Bosloxyl, for an effective response to dark circles. Airless technology protects the formula's integrity by shielding it from air, gas and other external contaminants.

Clicking the lockable button activates the flow of the product, which is then applied to the eye contour with a soft brush. Dosage is a perfect 0.15ml per stroke.

The slimline shape means the illuminator brush fits perfectly into a handbag, for regular touch-ups throughout the day.

The 6.5ml brush pen is colour matched in black with silver metallization on the bottle and cap, and black silk-screen print on the body.
