Quadpack introduces the ultimate glass nail bottle collection

Glass headlines once again, as we proudly announce our comprehensive new range of glass nail polish bottles.

As part of our corporate drive into colour cosmetics, these nail polish bottles round out Quadpack's growing make-up selection, which already includes foundation pens, pan sticks, lipsticks, mascaras and facial cosmetic containers.
“Our clients will be very surprised to find out just how competitive we can be in nail polish bottles,” says glass product specialist Marta Albanell. “What's more, our range of shapes and sizes will rival any existing European provider.”
Ideal for mass-market and masstige collections, the new Quadpack nail polish range is the result of extensive market studies. It includes square, conical, spherical, cylindrical and eye-shaped bottles, in quantities of 15ml, 8ml, 4ml and 3ml. A standard screw-top neck makes them compatible with any existing cap and brush. A variety of caps is also available on request.

Decoration options include matt finishes and screen-printing. Of course, Quadpack can also develop bespoke shapes and sizes to custom specifications.

Besides nail polish bottles, Quadpack's glass collection also includes jars, perfume bottles and lotions.

--- ENDS ---
