Hello! We are a B Corp!

Quadpack joins a global community of more than 5,000 companies who share a common objective: to use business as a force for good

We are proud to announce that, as of April 2022, Quadpack was certified as B Corp, a distinction given to a select group of 5,000-plus purpose-driven businesses around the world. We now belong to a community composed of global sustainability role models such as Patagonia, Natura, Rituals and many others. It is humbling, inspiring and exciting.

The B Corp certification means we have met rigorous standards of verified social and environmental performance, public transparency and legal accountability. It also indicates we are closer to people and companies who think alike and believe businesses are a force for good.

Sustainability is central to our growth and development. Through our people, our processes and our products, we aim to ensure a positive impact on the environment and on society. Some of the achievements we are proud of and helped us achieve such an important recognition are the Quadpack Foundation's activities, the sustainable transformation of our product portfolio, a roadmap towards net zero operations and ongoing improvements in governance, among other measures.

We know that B Corp is more than a certification: it's an acknowledgment of all the efforts we have put into our sustainable transformation and a new chapter of growth, innovation, and inspiration. "Quadpack grew through collaboration and shared value, working closely with our stakeholders. As a B Corp, we are embracing our purpose, using our business for the long-term benefit of our communities and environment. Our B Corp status will help us focus on the areas in which we can improve and make a difference" as an active participant in the packaging sector, we hope to encourage others join us," says Tim Eaves, Quadpack's CEO and co-founder.

Quadpack is also committed to the United Nations Global Compact and holds an EcoVadis Gold
