Helping beauty brands perform for 10 years

In 2003, three companies came together with a simple mission in mind: to help beauty brands perform. Ten years on, cosmetic packaging provider Quadpack Group is proud to say it's doing that and much more besides.

14 March 2013 marked the 10th anniversary of Quadpack Group. The result of a merger between Belcos Packaging, Lenglart Packaging and Gadbrook Packaging, the company has grown from a small concern to an international enterprise in 10 short years. And what a decade it's been!

Today, Quadpack has offices in 10 countries, including European and Asian sourcing operations. It has established and nurtured exclusive partnerships with the leading manufacturers in airless packaging, foamers, acrylic jars, fragrance bottles and make-up. It has opened a state-of-the-art test laboratory and established its own global logistics centre in Barcelona, Spain.

Quadpack has incorporated two businesses into the Quadpack fold: accessory company Spirit and wooden component manufacturer Technotraf. And it has developed literally hundreds of thousands of packaging solutions for the world's leading beauty brands.

Financially, the company's turnover has multiplied 14-fold, from €2.7 million in 2003 to €38 million in 2012, while staff now numbers well over 100.

This year, Quadpack wants to celebrate its success. It already started at Cosmoprof Bologna, where staff shared a glass of champagne with clients and business partners on its stand. A series of anniversary activities are planned for the coming year.

--- ENDS ---
