Skin Perfect in four steps

Australian skin care brand Dr LeWinn has launched a complete new range of anti-ageing beauty products in stylish cylindrical packs developed by Quadpack.

Skin Perfect offers a complete anti-ageing treatment in four steps. The primer and foundation are contained in 30ml glass bottles with dip tubes. The concealer and illuminiser come in 15ml and 20ml five-layer nozzle tubes, for precise, local application.

The 30ml bottles are acid-etched for a frosted effect, with a silver metallised collar and anodised brown aluminium cap. The logo and text are silk screened in brown. The tubes are brown with white lettering. The cap features a shiny silver hot-stamp band. The overall effect of the decoration is a range that is sleek, smart and effective.

Luiza Anthes, Brand Manager at Dr LeWinn, said "New Skin Perfect Range brings you the benefits of perfect make-up and anti-ageing solutions based on proven Dr LeWinn's skin care expertise. Quadpack has come up with a packaging solution that looks stunning and is perfectly aligned to support the Dr LeWinn brand."

Quadpack also supplies packaging for Dr LeWinn's Puressence, Line Smoothing Complex, Ultra R4, Facial Care and Suncare ranges.

--- ENDS ---
