Nail treatment made easy with Aflofarm brush tube from Quadpack

Regenerum by Polish pharmaceutical company Aflofarm is a complete nail treatment which strengthens, moisturises and regenerates the nail plate. Application is effortless and comfortable, thanks to a PE tube with brush applicator, developed by Quadpack.

Regenerum Nail Generator Serum is composed of four natural oils, enriched with vitamins A and E, to help fragile and brittle nails regain their strength and elasticity. The formula is contained in a 16mm cylindrical tube custom fitted with a brush. This makes applying Regenerum as easy as polishing nails.

The tube has a clinically-inspired look and feel, with a matt surface finish and branding in two-colour offset print.
