Yonwoo Jumbo Natural for brands that respect the environment

Consumer demand for environmentally-friendly products is increasing, particularly in the cosmetics sector. Cosmetics companies are responding with new organic ranges, but they do not need to stop there. Yonwoo's Jumbo Natural takes eco-friendly one step further by offering a pack that's more natural than ever.

Yonwoo Jumbo Natural not only uses recyclable and recycled materials, it also offers powerful protection. Patented airless technology shields organic formulas from contamination and prolongs their shelf life.

The airless containers comprise a lightweight polypropylene base and pump, topped by carton-sleeved caps. Polypropylene is ideal for product compatibility and all components can be easily recycled.

Two pack types are available:

- .Jumbo, in 30, 50, 100,150 and 200ml capacities and 0.5ml or 1.0ml dosage pump;
- .Slim Jumbo, in 15, 30 and 50ml capacities and 0.15ml dosage pump

Available from Quadpack, Jumbo Natural features easy top filling and can be decorated using a variety of methods. The cap can be printed with up to six colours and can either be laminated or maintain a natural cardboard finish.
