## Quadpack sets up laboratory services in the Americas

*New US lab provides value-added testing for regional brands*

Beauty brands in the Americas now have access to testing services of their packaging at Quadpack's facilities in Dallas, Texas. The international beauty packaging manufacturer and provider has established a US test lab in response to increasing demand. It complements the central laboratory, at its headquarters in Barcelona, Spain. The service adds a further level of quality control, as Quadpack seeks to offer solutions in the region, for the region.

The US laboratory is furnished with high-tech equipment to conduct leakage, weight loss, torque, decoration resistance, tube sealing, formula ageing and a host of other tests. The value-added service is available to support brands in the development stage of their packaging. The Dallas facility also offers stocking, decoration and assembly services and operates the InStockPack e-commerce site.

Quadpack's central laboratory in Europe is fully equipped for homologations, change controls and compatibility tests, the latter being a legal responsibility of beauty brands.

Quadpack is currently recruiting for its test facilities in Shanghai, China, to further extend the service in Asia, thereby establishing test labs in all three of its key territories.

About Quadpack

Established in 2003, Quadpack is an international manufacturer and provider of enhanced packaging solutions for beauty brand owners and contract fillers. With offices and production facilities in Europe, the Americas and the Asia Pacific region, and a strategic network of manufacturing partners, Quadpack develops bespoke and customised packs for prestige, masstige and mass market customers. Listed on Euronext Growth in Paris, Quadpack relies on a workforce of 800 people to build a more sustainable world. As a registered B Corp, it works to ensure a positive impact on the planet and society and, through the Quadpack Foundation, on the communities in which it is present. Legal notice

This document contains forward-looking statements about Quadpack's business, financial data, and events related to the company's prospects. These forecasts can be identified by the use of words such as 'estimated', 'plan', 'expectation' or words with a similar meaning. Quadpack may also make projections in other reports, presentations and press releases. Furthermore, the company's representatives may occasionally make forward-looking statements. These projections are based on current expectations and on certain hypotheses, many of which are beyond the company's control and subject to a series of risks and uncertainties. In the event that any of these risks or uncertainties should materialise or the underlying expectations are not fulfilled, the results or performance of Quadpack may differ (either positively or negatively) from those explicitly or implicitly forecast. Quadpack assumes no obligation to update or revise any forward-looking statements made previously.
