Arena Refill Jar: a timeless classic now in premium glass

Beauty packaging manufacturer and provider Quadpack reengineers its Arena PET jar along luxury codes, retaining the same wide silhouette, ergonomic use and effortless refilling, to meet the needs of prestige and cosmeceutical brands

Arena Glass Refill Jar is a stylish solution that elevates your skincare routine. Glass brings an added sense of luxury, making it an ideal choice for premium beauty and cosmeceutical brands. Its sophisticated design features a low profile, thick bottom and wide base, allowing clean and easy access to the formula. Made in Europe of recyclable and recycled materials, its hassle-free refilling system encourages reuse habits among consumers.

With Arena, refilling is effortless and mess-free. Integrated grip areas on the inner jar provide an ergonomic hold and allow for easy removal. The refill is then simply pushed in and it's like new, ready to use again.

The 60ml outer jar incorporates 30% post-consumer recycled glass, with a thick bottom for greater perceived luxury. The inner and cap are monomaterial polypropylene for optimal formula compatibility, with a minimum of 30% PCR content. Moreover, the refill's 50ml capacity avoids overpackaging by reducing the space between the inner and outer jars. A shive can be added on request, while the inner is also suitable for induction thermosealing during the filling process, removing the need for a temporary cap and lowering material usage.

A host of decoration options can be applied to reflect the brand's aesthetics, ranging from pure luxury to a clean, clinical look-and-feel. The dual structure of the glass jar and inner refill offers immense potential for creative design.

With Arena Glass Refill Jar, Quadpack continues its approach of continuous innovation — evolving proven packaging solutions with new formats, materials and decoration possibilities to answer the diverse requirements of beauty brands. Combining timeless aesthetics, functionality and refillability, the Arena range of jars offers a versatile solution for luxury skincare brands advancing their sustainability journey.

This document contains forward-looking statements about Quadpack's business, financial data, and events related to the company's prospects. These forecasts can be identified by the use of words such as 'estimated', 'plan', 'expectation' or words with a similar meaning. Quadpack may also make projections in other reports, presentations and press releases. Furthermore, the company's representatives may occasionally make forward-looking statements. These projections are based on current expectations and on certain hypotheses, many of which are beyond the company's control and subject to a series of risks and uncertainties. In the event that any of these risks or uncertainties should materialise or the underlying expectations are not fulfilled, the results or performance of Quadpack may differ (either positively or negatively) from those explicitly or implicitly forecast. Quadpack assumes no obligation to update or revise any forward-looking statements made previously.
