Natio bottles the sun

Skincare and cosmetics brand Natio's Self Tan Mousse now comes in an Apollo foamer developed by Quadpack.

As much as Aussies love the sun, protecting themselves from it is a high priority. Natio's Self Tan Mousse safely offers an instant, natural and even tan without exposure to the sun. The mousse formula glides easily onto the skin and does not transfer onto clothes.

The 150ml PET foam pump developed by Quadpack delivers a rich, even foam, thanks to Apollo's patented technology. The bronze colour-matched bottle is silk screen printed with the company's logo and product information – an elegantly simple treatment that has become Natio's trademark.

Natio started in Melbourne in 1993 in order to fulfil a gap in the market for aromatherapy-based, skin care. A Quadpack customer for over four years, it had previously selected an Apollo foamer for the Natio for Men Maximum Easy Glide Shave Foam.
