## Complete foamer packs that match your brand

What kind of foamer is right for your brand? Whether it's premium, OTC, travel-sized or eco-friendly, Quadpack now offers foamers as complete packs, ready to be personalised to your requirements. With a choice of HDPE and PET bottles in different capacities, the entire range is endowed with Apollo's patented foam technology.

Apollo foam pumps produce rich foam with a luxurious, even texture. They are engineered to keep metal parts out of the product path to protect formula integrity - a real concern for OTC formulas.

Quadpack has now developed standard bottles that perfectly fit these superior pumps. This drastically cuts overall development time, while the whole pack retains the flexibility to be adapted to your marketing brief.

Bottle options are as follows:

### HDPE

- 150ml (42mm neck size)
- 200ml (42mm neck size)

### PET and rPET (recycled)

- 50ml (33mm neck size)
- 150ml (42mm neck size)
- 200ml (42mm neck size)

PET offers greater transparency and a glossy texture, while HDPE has an attractive matt finish. All bottles can be decorated using a variety of techniques such as colour matching and screen printing.

Foam pump options include standard, premium and mini/travel varieties.
